# INVITATION

You are invited to join us to attend the **Future Minerals Forum** to:

Learn about mineral development strategies and plans in Saudi Arabia and the region.

Engage with senior Government officials from across the region and mining and investment global CEOs.

Explore collaboration, partnership and investment opportunities in an emerging global resources powerhouse.

Contribute to action focused conversations about the creation of minerals and metals value chains: from exploration to mining, processing, refining, manufacturing and circular economy.

Define the pillars of future responsible mineral development including, low carbon metals, hydrogen energy, social benefit and latest advances in mining technology and equipment.

We look forward to seeing you between 11-12 January 2023.
